

MORTUARY AND CREMATORY INFORMATION

Please note:

Although Maranatha Chapel does not endorse the following full service mortuaries and alternative funeral services, we can say that members of our congregation have reported to us that they have used these organizations with success. A search of you local directories or on the web will show that there are many additional mortuaries listed in our area. We list these only as a service in this time of need and as a starting point in your search for the appropriate funeral care. The first three organizations are local, full service and have resources available on their web sites that you may find helpful no matter which mortuary you select. The second group of funeral alternatives offer cremation services only or in some cases some limited burial services. We have available for your review at the church office, a notebook of literature from the below listed Mortuaries as well as a few others that have been used or suggested but are not noted here for the sake of brevity.
